Staging and Design

Living in a staged home

Do's...

- 🏠 Take a picture of the staging so you can reset it for showings and open houses
- 🏠 Let us know right away if something gets damaged or broken, not at pickup
- 🏠 Leave the de-staging to us! You may want to help us out as you prepare for your move—leaving items in place helps our team keep track of our inventory
- 🏠 Sit on the couches, eat at the table, use the desk; but please do so respectfully and clean after yourself

Don'ts...

- 🏠 Smoke/vape, eat or drink on the furniture
- 🏠 Allow pets on the furniture
- 🏠 In order to keep your staging looking fresh, please do not sleep on our bedding or use the towels

- 🏠 We love what we do, and we understand that you'll be living with our inventory, please know that if items are returned damaged or dirty, a cleaning or replacement fee may be added.
- 🏠 If you like what we've done and want help styling your new home, contact us for a design consultation!
